

E-Posters @ EMSI 2018

Purpose: The posters (contributed papers: either poster or oral) would be made available through Digital Posters. There would be three large screens available around Stall and Exhibition Area where in the e-posters would be available to browse. This is in addition to the regular posters. This would help the participants to show/discuss their work with other colleagues attending the conference.

This enhances the visibility of your work and allows to interact better.

Procedure:

1. Make your contributed paper (oral or poster) in to Six Slides - use PPT or any other software package and then convert into PDF
2. Send PDF file to email address eposter.emsi2018@gmail.com
3. Mention your
